PROJECTS

TechnoKart | *Next.js, Node.js, Express.js, MongoDB*

- Built and deployed a full-stack student marketplace with **JWT authentication**, **rental management**, and **inventory management** features using Next.js, Node.js, Express.js, and MongoDB.
- Designed **15+ RESTful APIs** with Express.js covering product listings, JWT-based user authentication, and complete rental lifecycle management.
- Engineered an automated **rental expiry notification system**, reducing missed returns by ~30% and improving user retention.
- Independently managed end-to-end development — UI/UX, database schema design, and deployment on **Vercel + Render** within 4 weeks.

Internova AI | *Next.js, Node.js, Express.js, MongoDB, Groq API*

- Developed an **AI-powered career platform** featuring **resume analysis**, **internship recommendations**, and **personalized learning roadmaps**.
- Built **6+ core features** — AI interview question generator, PDF resume upload, career guidance chatbot, and skill-based roadmaps using Next.js and Node.js.
- Integrated **Groq API** to provide real-time resume feedback, interview preparation assistance, and AI-driven career guidance.
- Implemented **JWT authentication**, backend API security, and deployed the full-stack application using Vercel and Render.

Civic Issue Report & Resolution System | *MongoDB, Express.js, React.js, Node.js*

- Developed a **Full-Stack Civic Issue Reporting Platform** enabling citizens to report civic problems with **real-time status tracking**.
- Integrated **Image/Video Uploads**, **Interactive Maps**, and **Live Location Pinning** for accurate issue reporting and verification.
- Implemented **JWT Authentication**, **Role-Based Access Control (Citizen/Admin/Authority)**, **REST APIs**, and a **Real-Time Admin Dashboard** for efficient issue management and resolution.
